Consent Form

School District 46 plans to provide Grades _____ students with access to Google Chromebooks and students will have an opportunity to work with Google educational internet applications on the internet ("Google Apps"), as described in the attached letter.

The Google Apps are hosted by Google. The student's name/google account and the school will be collected and shared with Google for the purposes of creating secure email accounts and administering the program. Google's servers are located outside of Canada, which means that this information and other information in the student's Google Chromebook account may be subject to the laws of a foreign jurisdiction, which may not provide the same privacy protections as the laws in place in Canada. That information may include student work product and the contents of his/her email account. To minimize any risk posed by the storage of this information outside of Canada, the School District will be instructing students about the types of information that it is appropriate to use and exchange using these tools and appropriate online security.

For more information about Google's privacy and information management practices Google's Terms of Services and Privacy Policy can be found at: http://www.google.com/apps/intl/en/terms/user_terms.htm. These documents provide assurances that Google will not monitor or track student online activity for the purposes of identifying or contacting individual students. However, Google may collect some information about how its systems are being used generally by students in order to provide, maintain and improve its products and services.

By signing this form you are consenting to the collection, use and disclosure of the student's personal information through the use of the Chromebooks and Google Apps as described above. You are also acknowledging and agreeing that this information may be disclosed to, used by and accessible to Google outside of Canada for the purposes as outlined above.

I understand that the student's privileges to use the Google Apps is subject to his/her compliance with the District's Acceptable Technology Use Policy as attached.

Name of Student: _____ Grade: _____ Student PEN # _____
(Please Print)
